

install Rescuebox on windows 11 with Nvidia GPU

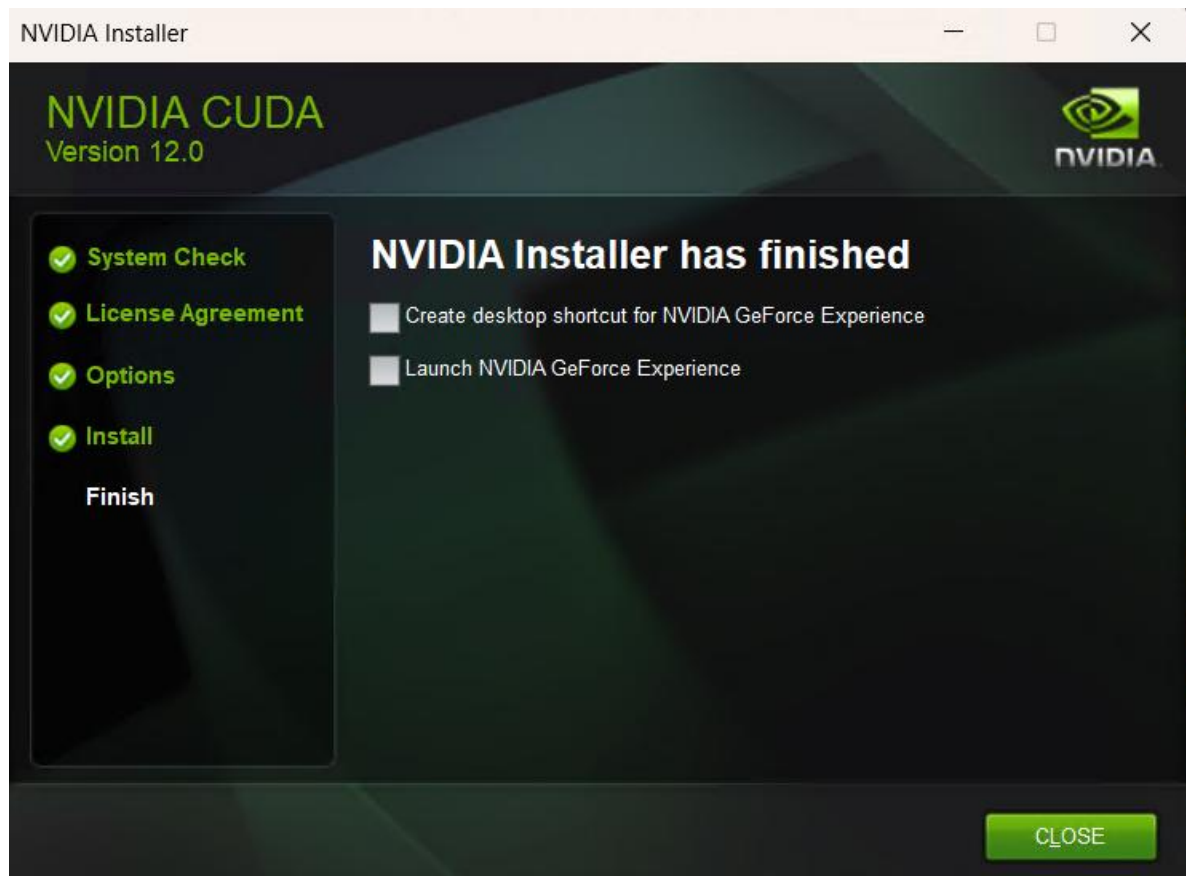

Wednesday, July 15, 2026
7:51 PM

Windows 11 server with 32 GB RAM and Nvidia GPU

start by installing Nvidia GPU pe-requisites install CuDNN

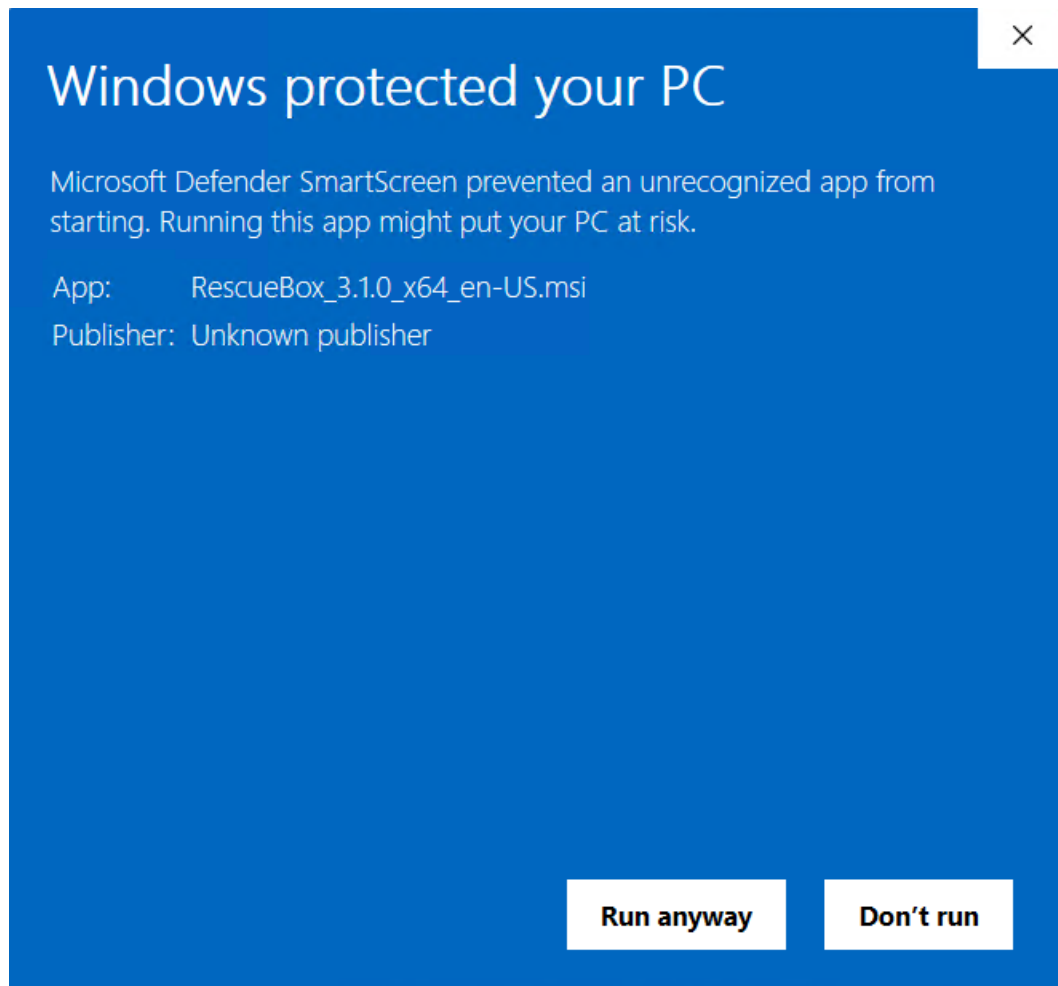

and CUDA 12

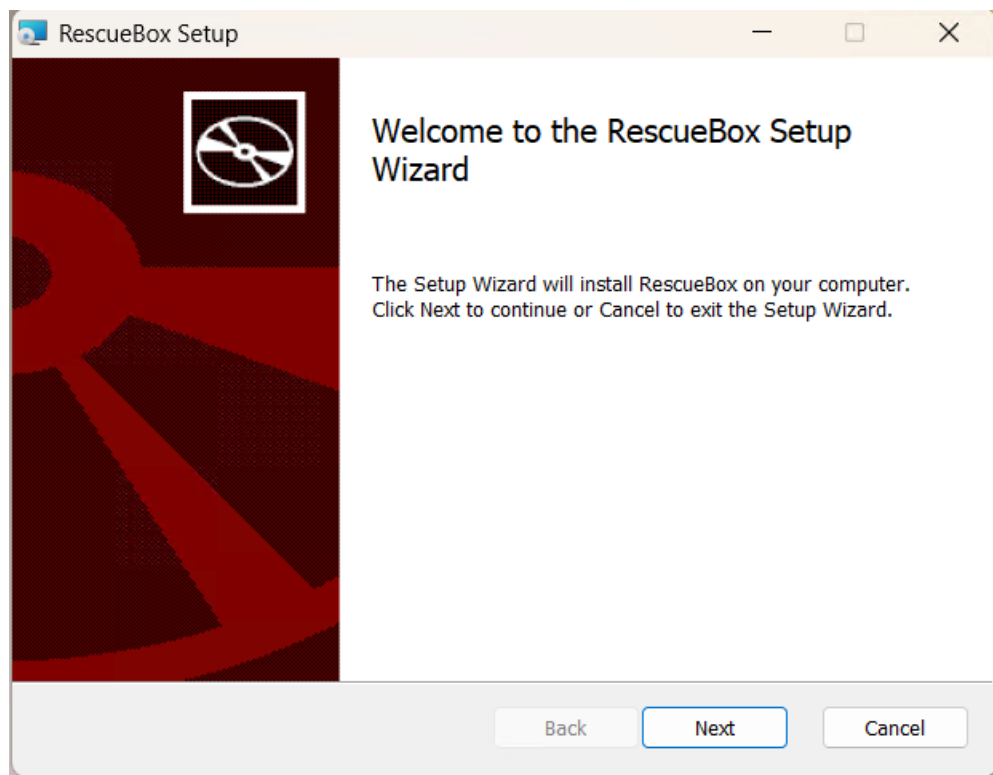

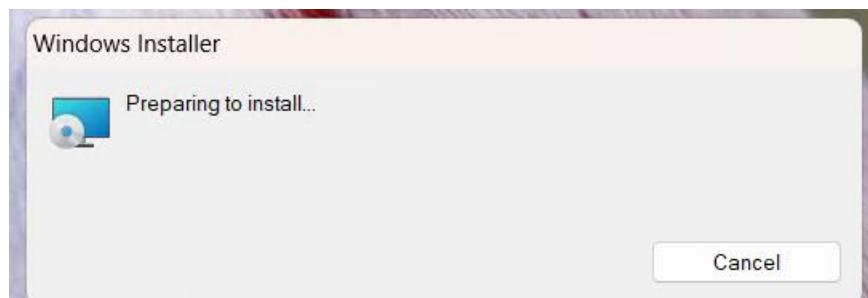

Run Rescuebox Installer

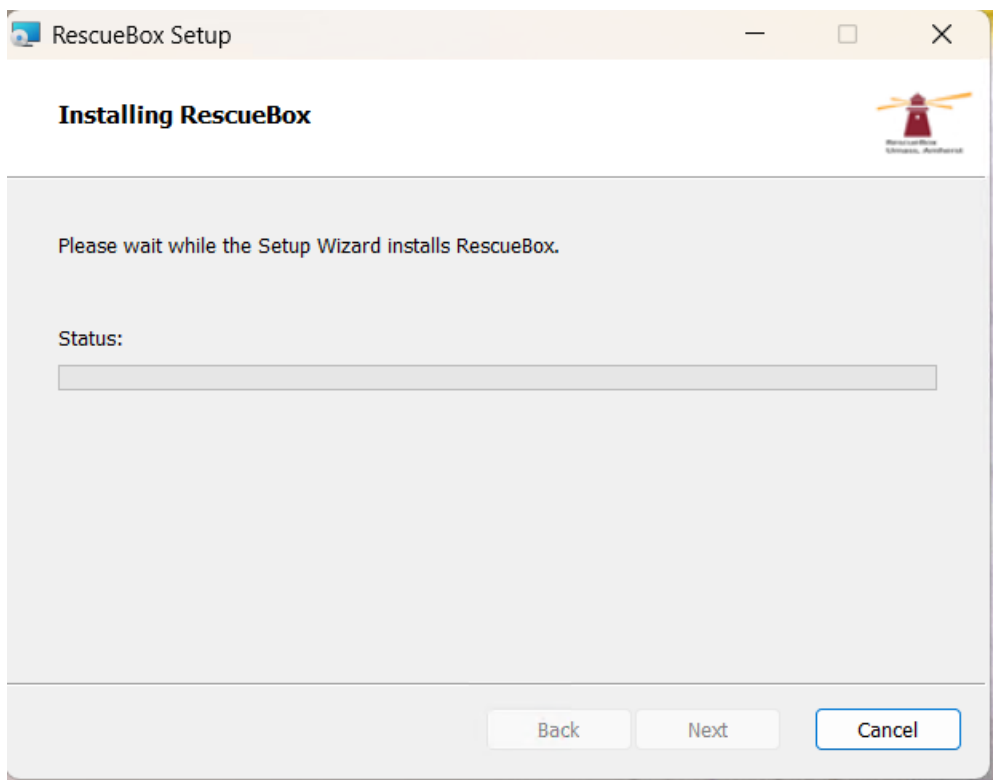

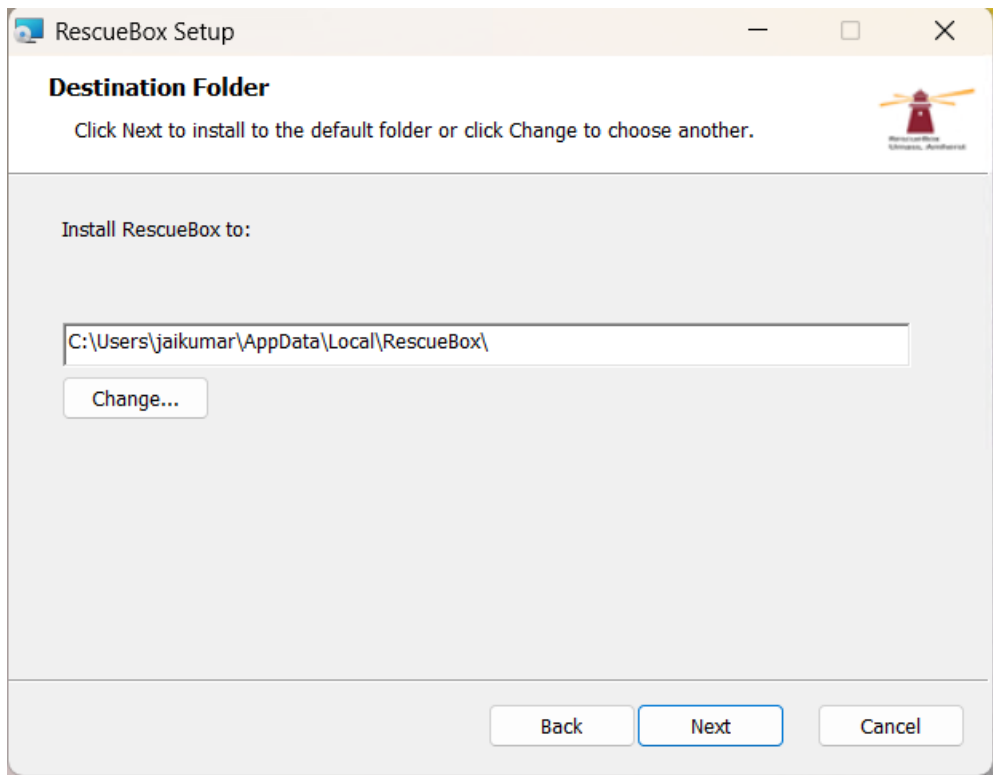

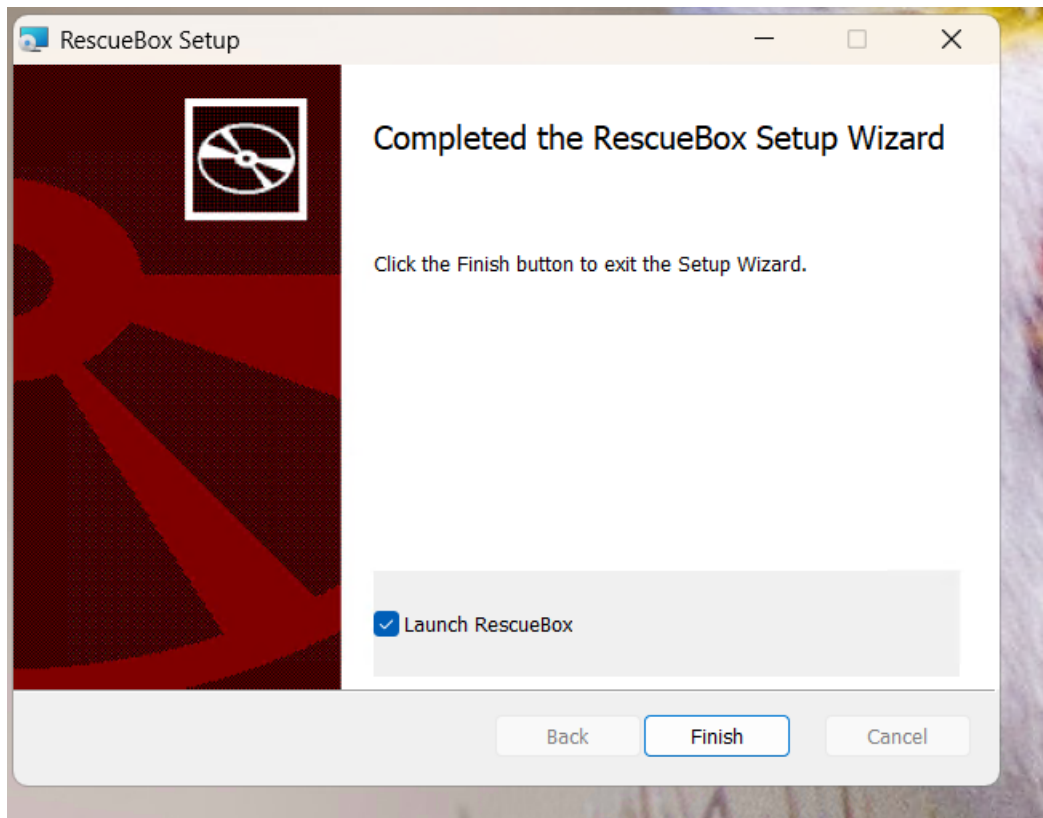

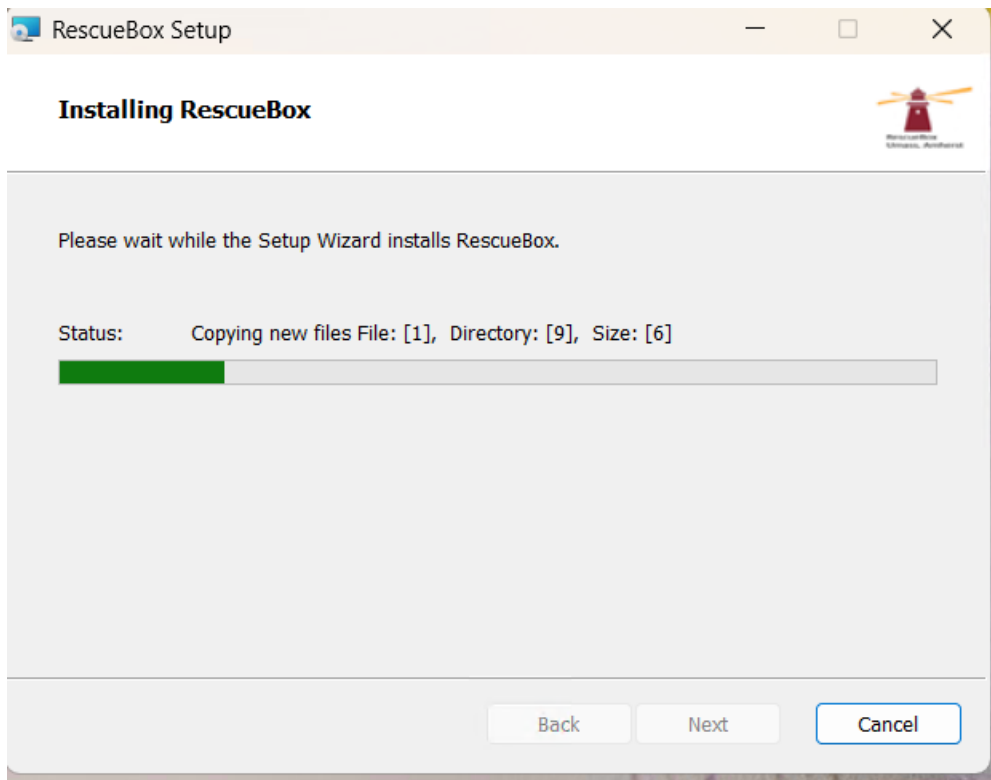

click on More info and hit "Run anyway"

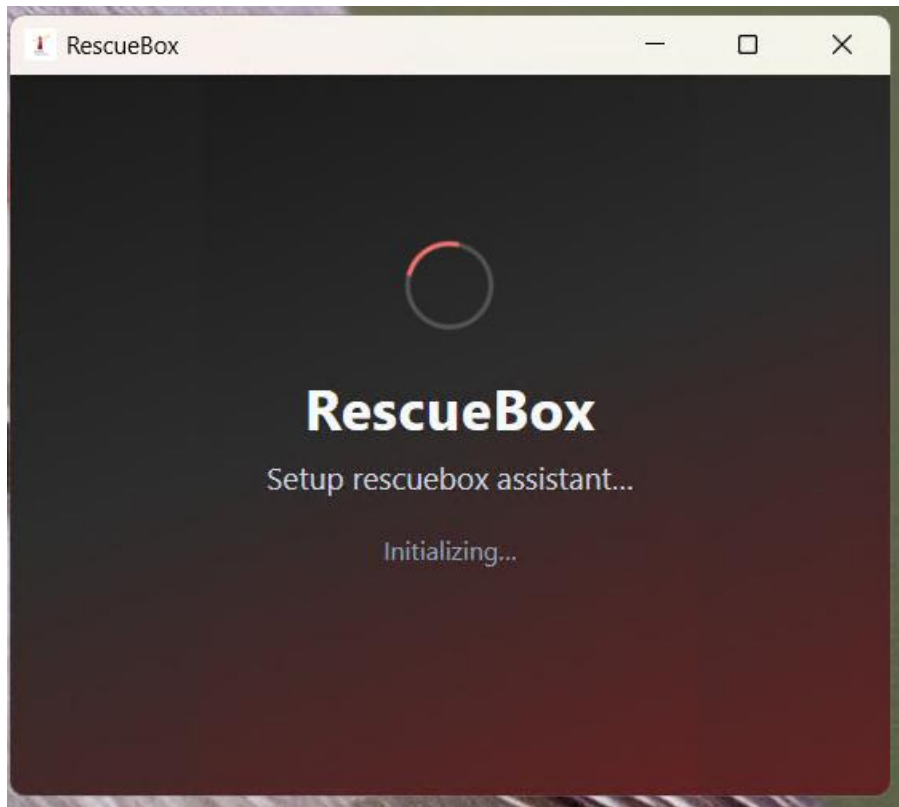

Default Rescuebox Home location

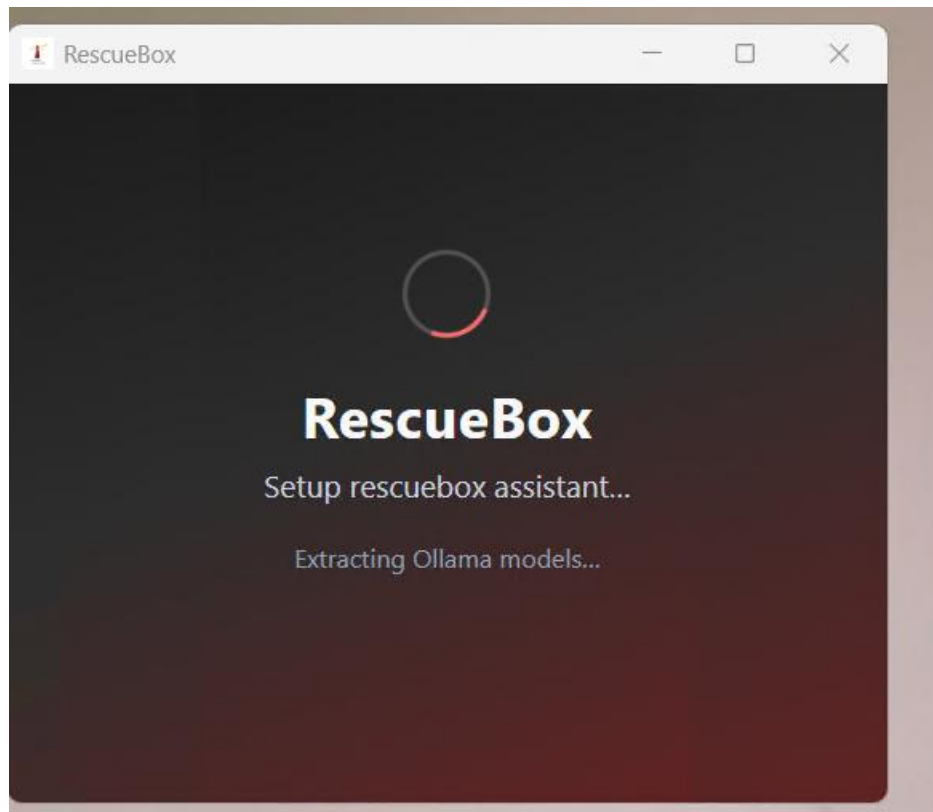

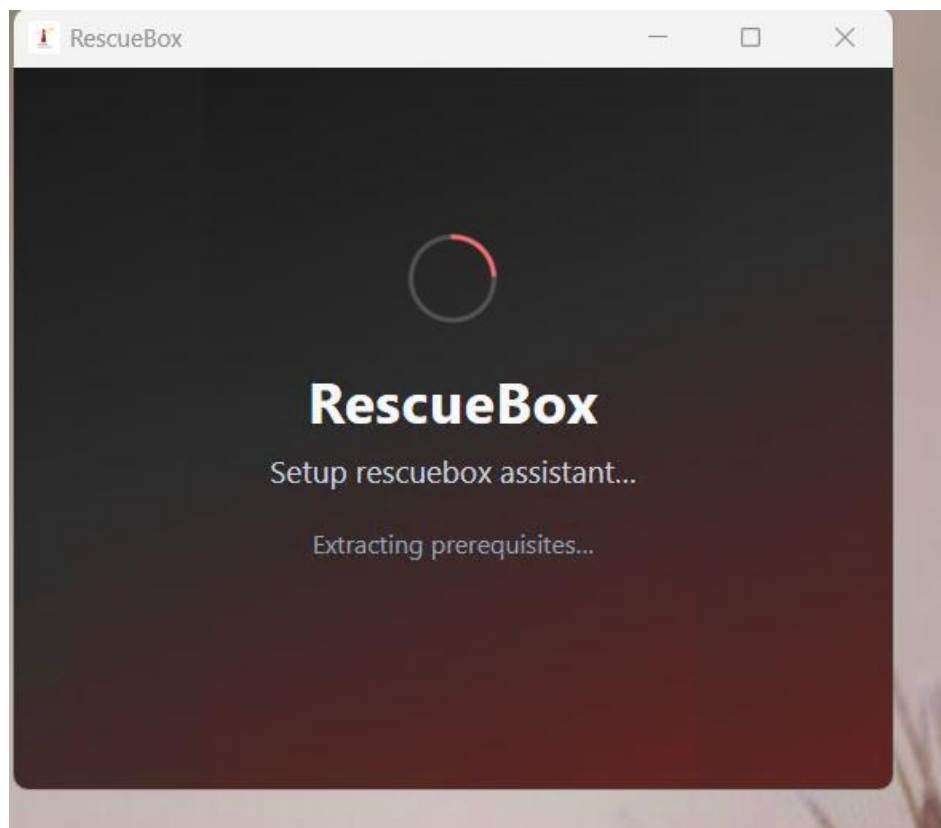

At this point rescuebox extracts model zip files , this takes most of the time

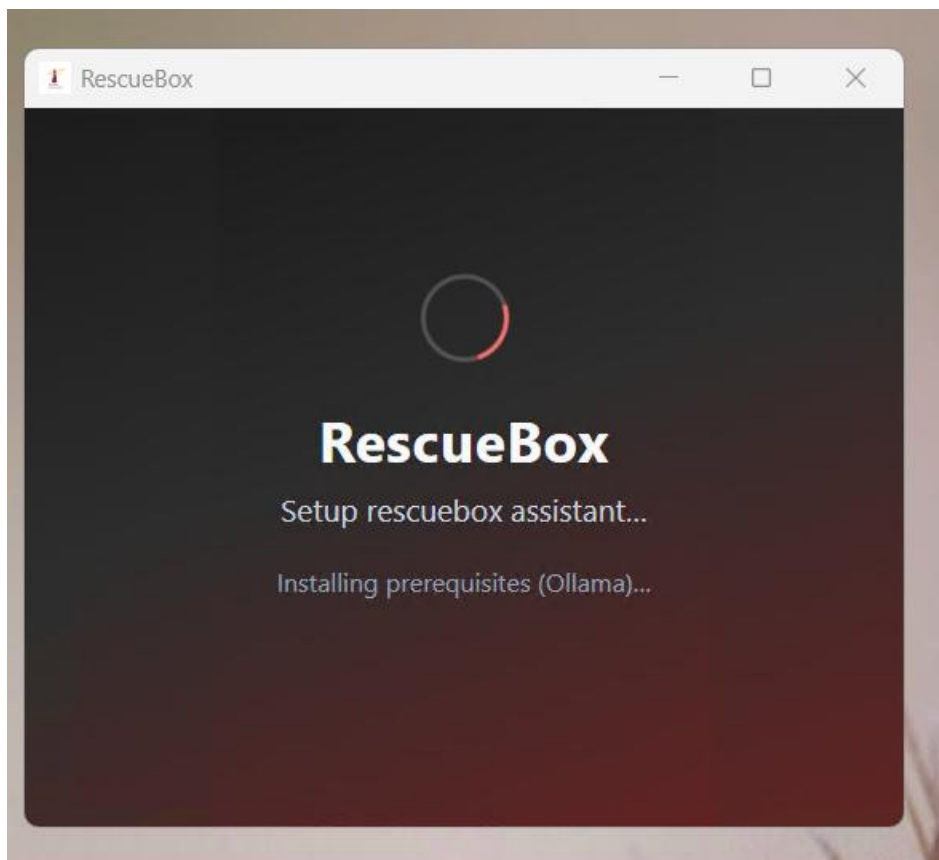

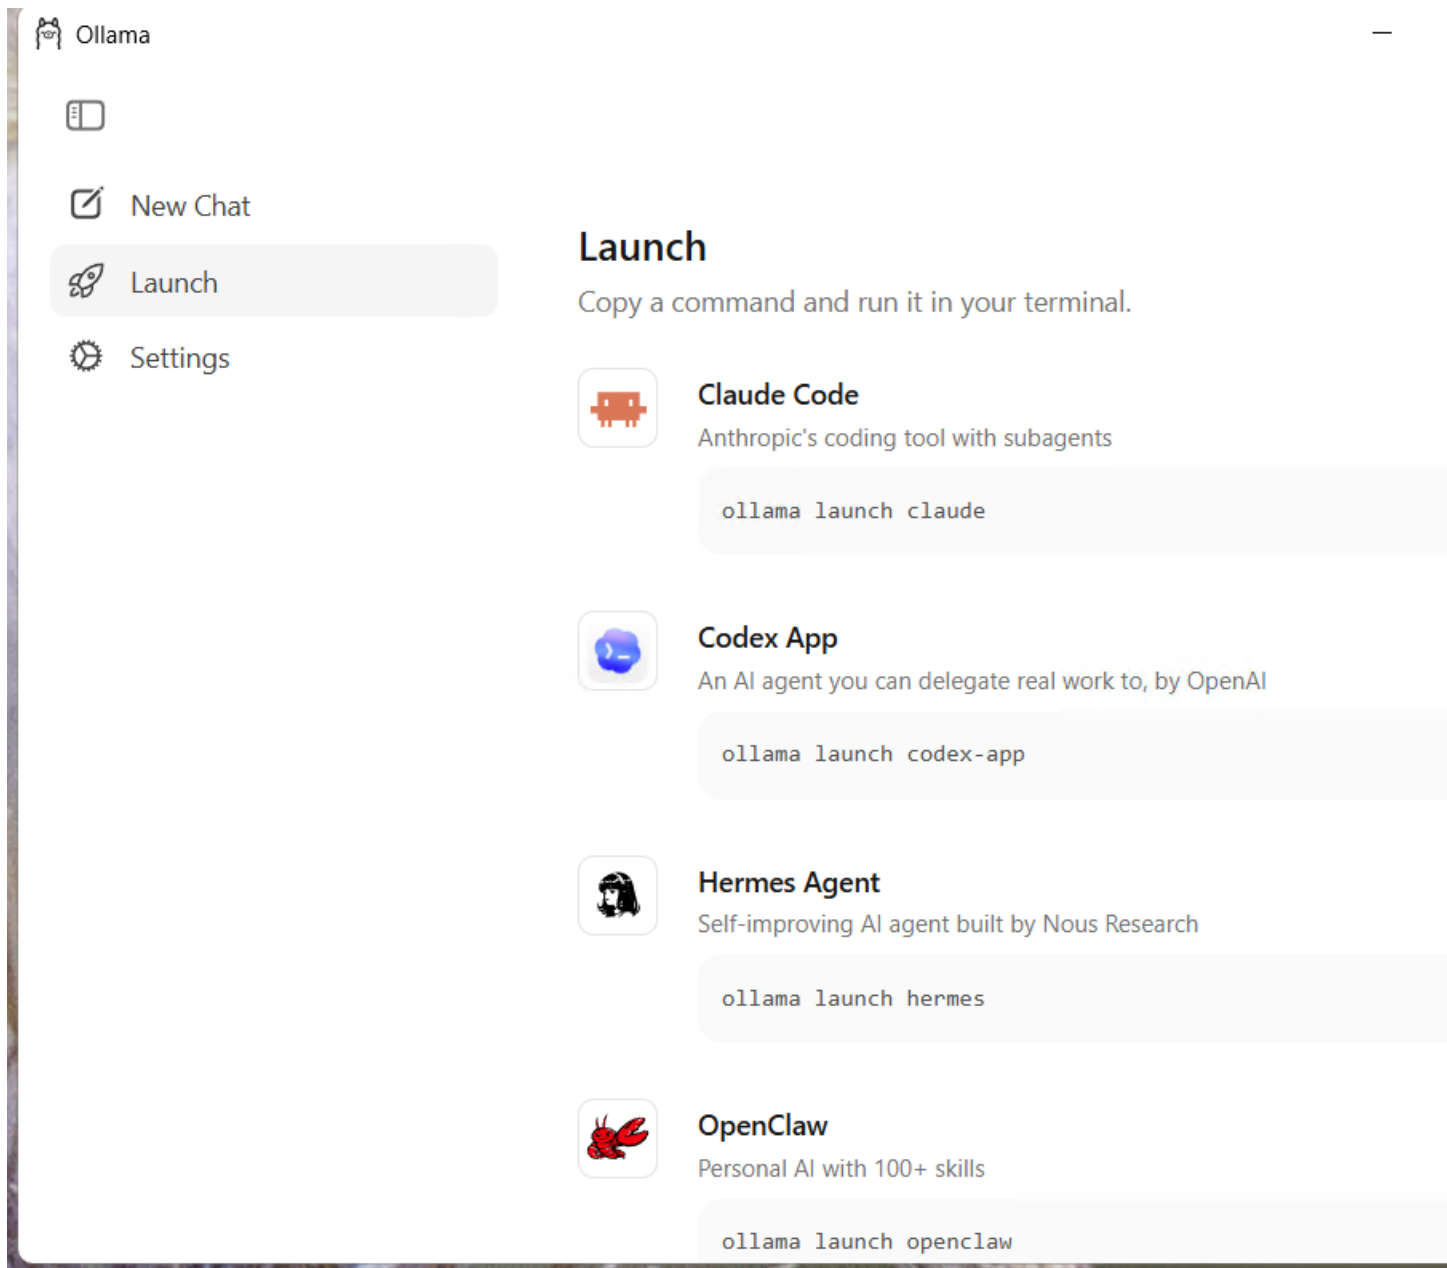

takes about 6 minutes on a slow disk machine

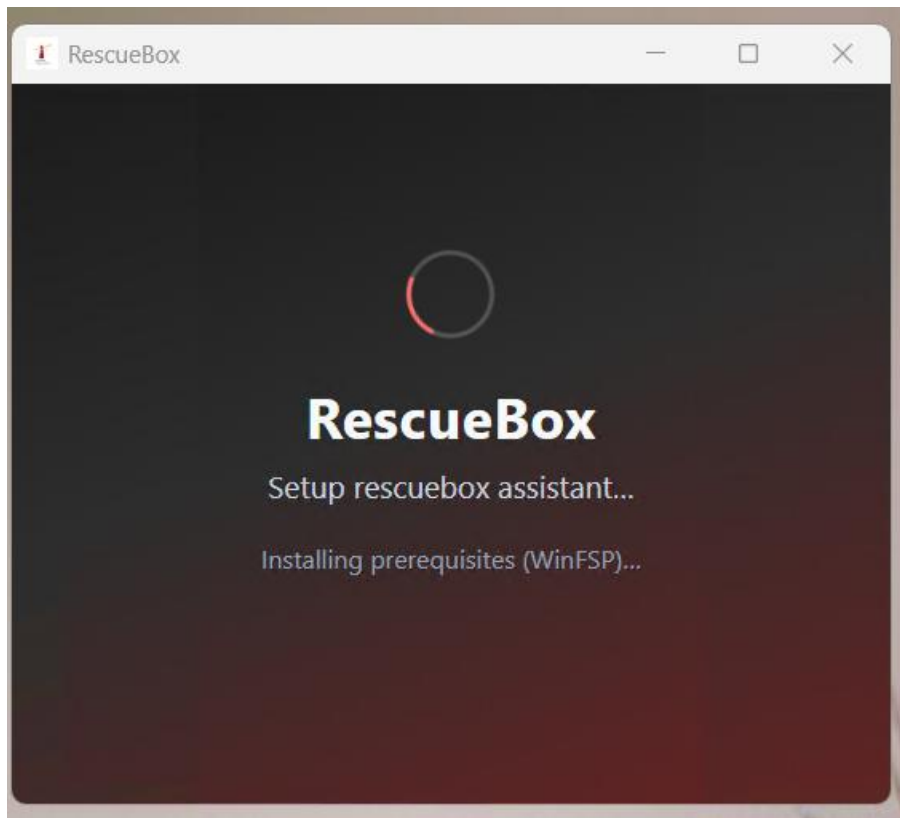

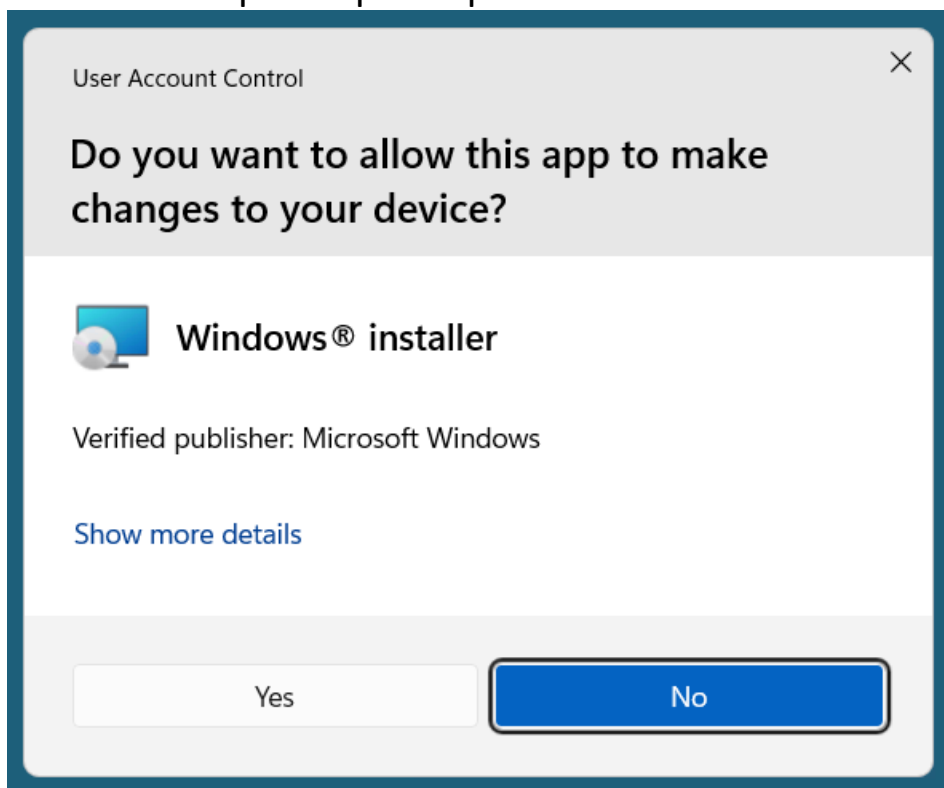

Ollama UI, review and close this UI, no changes needed

UFDR mount pre req winfsp
